

Göta studentkår's alcohol and drug policy.

Type of governing document: Policy

Adopted by: The Union board, 2017-05-02

Göta studentkår's alcohol and drug policy

This policy applies to Göta studentkår and all parts of the organization, including approved union associations, sexmästerier, section associations, committees and section committees which conduct party activities and/or handle alcohol.

Student engagement is a tradition-bound activity, and one of the strongest traditions is alcohol consumption. This has created an alcohol norm where alcohol is seen as an obvious element in student life, which risks both harming individuals and also partly affecting who will feel welcome in different contexts of Göta studentkår. In order to change the alcohol norm in student life as a whole and in activities linked to Göta studentkår in particular, we all have a responsibility to pay attention to when alcohol habits become destructive, but also not to consolidate the existing alcohol norm among students.

One of the main areas of Göta studentkår is to work with study social activities, this is done both through our own operations but also through the activities of our associations. In some of these activities there is alcohol and with this policy we want to ensure that all activities with alcohol are a safe and secure place for students and that regardless of attitude towards alcohol, everyone should feel welcome.

The Alcohol and drug policy should clarify and explain the organization's distancing from drugs and promote a healthy relationship with alcohol. Göta studentkår should ensure that activities with alcohol are a safe and secure place for students and that regardless of attitude towards alcohol, everyone should feel welcome.
