Göta studentkår's vision

Mission

Göta studentkår is representing the students towards the University of Gothenburg. With quality assurance, advocacy and an active student life we are creating a community and improvement of your time of study.

This is the organization's foundational mission. This mission is a red line through all of the activities and will be the foundation for the organization's future goals and visions.

Vision

“We make a study time to remember possible and secure an education to be proud of”

Study time to remember

Your study time is a period filled with happiness and solidarity. Göta studentkår gives you friends for life, events to remember and opportunities for personal development. With engaged student organizations and members we are offering something for everyone. During your study time you will create connections with academia, students from the entire university, and the surrounding society to give you a large network and a broad perspective.

Education to be proud over

The studies at the University of Gothenburg will give you a lead out in life with a world-class education that gives you both broad knowledge and excellence. The studies give you the opportunity for all students to develop to their full potential. Göta studentkår is a strong voice that constantly carries the students' voice through advocacy in every available forum and on all levels of the university.
